

SKIN NAIL

An end to bitten, striated
and brittle nails

Natural Health Product

Do you bite your nails ? Are your nails striated or brittle ?

You are like one in three people
who have these problems*.

The main causes of nail biting (onychophagy) are:
- the stress of everyday life
- anxiety

Description :

Skin Nail is a clear varnish with the natural bitter extracts of Quassia. Quassia is a South American tree that has been used since antiquity for its bitterness and nail strengthening properties.

Indications :

- Onychophagy: nail biting
- Striated and brittle nails

Utilisation :

Treatment of nail-biting: Apply Skin Nail everyday for 2 to 3 weeks.

Treatment of striated and brittle nails: Apply Skin Nail before normal nail varnish.

Counter-indications

Not to be used with infants. Do not swallow.
Keep away from heat sources.

Composition:

Denatonium benzoate 0.46 g, Quassia extract 0.15 g, citric acid 4.16 g, varnish qsp 100 g INC: acetone, toluene, butylacetate, nitrocellulose, isopropyl alcohol, dibutyl phthalate, alcohol, citric acid, ethylacetate, camphor, methionine, acrylates copolymer, dimethiconol, cyclomethicone, benzophenone, cinnamomum, denatonium benzoate.

Presentation : 11 ml glass vial with application brush
